Projects

Personal Portfolio Website

https://nelsontron.com

Made to prove programming skill with front end, backend, REST, and frameworks. Drives traffic to my freelance web content work. Features a simple intuitive design with colorful design elements. Built on ReactJS, NodeJS backend, and MySQL.

Example Movie Website

https://github.com/nelsondev/tron/tree/proj-movies

Highlights Proficiency in HTML/CSS markup languages. Incorporates JS Elements, as well as clean, functional JavaScript programming.
